# **BEFORE TRANSFORMATION**

- **Antarctica is covering about 14 million square kilometers, it is the coldest, driest, and windiest place on Earth.**
- **Nearly 98% of its surface is covered by an ice sheet, which contains around 70% of the world's freshwater.**

# **AFTER TRANSFORMATION**

The background of the slide is a composite of five vertical, rounded rectangular panels. Each panel shows a different scene from Antarctica. The first panel on the left shows a snowy, rocky landscape. The second panel shows two penguins standing on a snowy slope. The third panel shows a large, jagged ice mountain. The fourth panel shows a group of penguins on a snowy shore. The fifth panel on the right shows a penguin sitting on a snowy shore. The word "ANTARTICA" is written in large, bold, yellow capital letters across the middle of the panels.
